## **Earn AIA Credit with SDI's Free Webinar**

*December 9, 2011 WESTLAKE, Ohio* – Steel Door Institute now offers a free and convenient way to earn AIA Sustainable Design hours in 2011. *Steel: Green Now, Green Forever - Building with Recycled Materials* debuts as a live webinar on December 20<sup>th</sup>, 2011 from 12:00 p.m. – 1:00 p.m. EST.

The course focuses on the production, recyclability and advantages of steel in the construction industry. Attendees will learn how specifying steel can contribute to potential LEED credits as well as compliance with the upcoming International Green Construction Code (IgCC) requirements.

Jeff Wherry, Managing Director of SDI, said, “We understand architects have busy schedules but still have a need for continuing education. The *Steel: Green Now, Green Forever - Building with Recycled Materials* webinar is a convenient way to earn sustainable design hours without leaving the office.”

Jeff continued, “The course covers important topics such as the available LEED credits and compliance with the (IgCC) requirements. We believe the question and answer session with our industry experts will be especially valuable to the participants.”

[Click here](http://www.steeldoor.org/education.htm) to sign up for the webinar. More information is available at the SDI website at <http://www.steeldoor.org/education.htm>.

### **About the Steel Door Institute**

The Steel Door Institute (SDI) was established in 1954 as a voluntary, unincorporated, non-profit business association whose mission is to promote the use of steel doors and frames in the construction industry. Representatives of SDI member companies create and publish manufacturing, quality and performance standards promulgated by the association, and distribute them to licensed architects and construction specifiers at no charge.

Membership is open to all American based companies engaged in the production for sale of swing steel doors and/or frames on a national basis for at least two years. Members mutually agree to establish and abide by SDI manufacturing and quality standards that apply to all doors and frames they produce.
