MPI is Latest Member of Steel Door Institute 11th Company to Meet Rigorous Standards

September 17, 2009 WESTLAKE, Ohio — Metal Products Inc (MPI) is pleased to announce membership in the Steel Door Institute (SDI). SDI is an elite organization of door and frame manufacturers which sets the standard for the manufacture of commercial steel doors and frames.

MPI underwent a thorough and exacting evaluation process prior to acceptance as member. Membership in the SDI serves to underscore the commitment to "Quality and Excellence" which is a hallmark of MPI products and service.

Jeff Wherry, Managing Director of the Steel Door Institute, said, "SDI is pleased to welcome MPI as a member. The public is well served by having a growing number of American manufacturers of hollow metal doors and frames that meet SDI standards, which assure them of the highest quality."

About the Steel Door Institute

The Steel Door Institute (SDI) was established in 1954 as a voluntary, unincorporated, non-profit business association whose mission is to promote the use of steel doors and frames in the construction industry. Representatives of SDI member companies create and publish manufacturing, quality and performance standards promulgated by the association, and distribute them to licensed architects and construction specifiers at no charge.

Membership is open to all American based companies engaged in the production for sale of swing steel doors and/or frames on a national basis for at least two years. Members mutually agree to establish and abide by SDI manufacturing and quality standards that apply to all doors and frames they produce. www.steeldoor.org

About Metal Products Inc.

Founded in 1980, MPI has become a leading manufacturer of custom hollow metal doors, frames and accessories. The company's modern production facilities of 55,000 square feet are located in Corbin, Kentucky, USA adjacent to the main offices. Facilities include an advanced Amada fabrication center housing automated punching and forming equipment. www.metalproductsinc.com
