SDI Offering Dec. Webinars for AIA credit

October 30, 2013 WESTLAKE, Ohio –The Steel Door Institute (SDI) is offering free webinars on Dec. 3 and Dec. 18 of its popular online course *Steel: Green Now, Green Forever*. The webinar provides one AIA Health, Safety and Welfare Design (HSW) hour.

Steel: Green Now, Green Forever covers the recyclability of steel, construction products made from recycled steel, features of steel doors and frames, and the available LEED credits available when building with steel. The online class has been taken by thousands of architects.

Jeff Wherry, Managing Director of SDI, will be teaching the two webinars. Jeff has more than two decades of experience in the steel door industry. In his position with SDI he manages all levels of the organization and also provides technical support to architects and specifiers with phone and web site inquiries.

You can sign up for the webinars, or for the online version of *Steel: Green Now, Green Forever*, on the education page of the SDI website <http://www.steeldoor.org/education.php>.

About the Steel Door Institute

The Steel Door Institute (SDI) was established in 1954 as a voluntary, unincorporated, non-profit business association whose mission is to promote the use of steel doors and frames in the construction industry. Representatives of SDI member companies create and publish manufacturing, quality and performance standards promulgated by the association, and distribute them to licensed architects and construction specifiers at no charge.

Membership is open to all American-based companies engaged in the production for sale of swing steel doors and/or frames on a national basis for at least two years. Members mutually agree to establish and abide by SDI manufacturing and quality standards that apply to all doors and frames they produce. www.steeldoorinstitute.com
